Summary

Detail-oriented Computer Science undergraduate with strong fundamentals in programming, data structures, and databases. Passionate about building efficient, scalable, and maintainable software solutions. Seeking real-world exposure and opportunities to contribute to innovative projects.

Education

Mody University of Science and Technology, Rajasthan	2023–2027
B.Tech in Computer Science	CGPA: 7.2/10
Hanuman Balika School, Churu, Rajasthan	2021–2022
Class XII	82.2%

Projects

Grammart (Gramkart) – E-Commerce Web Application	2025
HTML, CSS, JavaScript, Flask, MySQL	
- Full-stack e-commerce platform with authentication, shopping cart, and admin dashboard. - Implemented order processing and secure MySQL database integration. - Designed responsive user interface with HTML, CSS, JavaScript.	
Sudoku Solver	Dec 2024
C, Backtracking	
- Developed recursive algorithm to efficiently solve 9×9 Sudoku puzzles. - Applied optimization techniques using data structures and backtracking.	
Resume Builder	May 2025
Java, Swing, iTextPDF	
- Created desktop application to generate professional resumes in PDF format. - Automated PDF creation using iTextPDF library.	

Internship

CodeSoft	June 2025
Software Development Intern	
- Developed mini-projects using Python and Java. - Improved debugging, version control, and collaborative coding skills.	

Skills

- Languages:** C, C++, Python, Java, SQL
- Web Development:** HTML, CSS, JavaScript
- Concepts:** OOP, DSA, DBMS
- Tools & IDEs:** VS Code, NetBeans, Thonny, MySQL

Co-Curricular

- Infosys Springboard:** Completed certified training in Python programming and problem-solving (2024).
- ISRO Bharatiya Antariksh Hackathon:** Participated in national-level innovation challenge focused on space technology (2025).
- Agentic AI Day – Hack2Skill:** Attended workshops on AI agents, automation, and emerging AI technologies (2025).
- International Workshop – YBI Foundation :** Participated in hands-on Python programming workshop for advanced coding and AI applications (2025)

Extra-Curricular

- Contributor, Google Developer Student Clubs:** Participated in Competitive Programming events.
- Volunteer, Karuna Society:** Social work and community development.
- Content Writer, Picturesque:** Created blog posts and technical content.
- Performer & Script Support, Anahata:** Assisted in dramatics performances and script writing.
- Trainer, Technoryx:** Conducted Competitive Programming training sessions for peers.
